USDA ANNOUNCES FUNDING

(Nuestra Clinica del Valle to Receive \$3,216,800 Loan)

San Juan, Texas, October 10, 2002--Bryan Daniel, Texas State Director, USDA Rural Development announced that Nuestra Clinica del Valle has received a loan through the agency's Community Facilities loan program. The effort is part of USDA's national program to help rural areas build and enhance essential community facilities.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "With lower populations and tax bases than urban areas, rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

Nuestra Clinica del Valle was awarded a \$3,216,800 loan to construct a new ambulatory health care facility for low, very-low income and indigent people in the Pharr, San Juan, Alamo and Edinburg areas. The existing facility in Pharr is a rented building that is in a deteriorating condition. The new facility will be built on three acres donated by the city of San Juan. The new building will be approximately 25,000 square feet. Services will include family practice, pediatrics, OB/GYN, internal medicine, and dental. Population served by this project is 114,984.

In Fiscal Year 2001, a total of \$6.3 million in direct and guaranteed loans were obligated. Community Facilities loan funds may be used to construct, enlarge or improve community facilities for health care, public safety, and public services. These loans and grants are made to public entities and non-profit organizations. Examples of eligible projects include rural
